**Additional Information:** See the UL Online Certifications Directory at [www.ul.com/database](http://www.ul.com/database) for additional information

Only those products bearing the UL Certification Mark should be considered as being covered by UL's Certification and Follow-Up Service.

Recognized components are incomplete in certain constructional features or restricted in performance capabilities and are intended for use as components of complete equipment submitted for investigation rather than for direct separate installation in the field. The final acceptance of the component is dependent upon its installation and use in complete equipment submitted to UL LLC.

Look for the UL Certification Mark on the product.

### ***FACTORY IDENTIFICATION***

A factory identification code (factory ID) is a marking unique to a manufacturer that is applied to products made by that manufacturer. The factory ID is designated by the customer and may include letters, numbers and/or symbols. A factory ID is required for any UL file-volume with more than one manufacturer.

**The GSA V2 agreement will be send to each new manufacturer for signature.  
We will need to have the GSA signed back before we can proceed with your request.**
